Sheep and Wolves Game

You need to transfer all the sheep and wolves to the right side in order to solve the puzzle.

The number of wolves on either side of the river cannot outnumber the sheep.

Wolves can be alone on either side of the river.

Initially, the boat is at the left side.

The boat should contain at least one animal to move.

Only one or two animals can be crossed in the boat at a time.

Initial Number of Sheep:

Initial Number of Wolves:
